

Searching for a Gen Ed

1. **Google “courses uiuc” and Course Explorer will come up.** The Course Explorer provides the schedule of classes by term and a browsable database of gen ed requirements in addition to other resources.
2. **Select the “GenEd REQs” tab at the top**
3. **Make sure Fall 2022 is at the top of the GenEd REQs” page. If it does not say Fall 2022, select “Term” on the right side of the page, and then select “Fall 2022.”**

Social & Behavioral Sciences Fall 2022

If you entered college as a freshman in Fall 1994 or later, you need to complete six hours of Social and Behavioral Sciences course in order to graduate. Social and Behavioral Sciences courses are placed into two subcategories: Behavioral Sciences and Social Sciences.

Effective for entering freshmen in Fall 2004, all courses on this list are approved for General Education credit on a campus wide basis. However individual Colleges or curricula may require specific courses or course categories. Students should consult their advisors about selecting the general education courses which best fit their programs of study. Courses are added as they are approved.

4. **Select the blue check to ensure you only look at open sections.**
5. **Select a course with a blue checkmark that sounds interesting to you.** Keep in mind...
 - a. For your first semester you will typically be recommended to take a Humanities and/or Cultural Studies.
 - b. Gies has specific gen ed requirements. For example, you will not need to select Quantitate Reasoning because your Business Core Math course and CS 105 will meet this requirement.
 - c. ****If you are searching for a Behavioral Science, make sure you pick the subsection for Behavioral Science - BSC! DO NOT select the SS subcategory.**

6. **Read the course description at the top.** Here you can also see again what requirement the course satisfies.

LING 270 Fall 2022 [All Classes](#)

Language, Technology & Society [Course in Catalog](#) [List of Terms offered](#) [PDF](#) [Register for Classes](#)

Credit: 3 hours.

What technologies have humans developed to augment the quintessential human ability: language? We start with the development of writing, the first technology that was specifically designed for language, and trace its history through the invention of printing, and into the digital age. With the advent of computers the relevance of language for technology has broadened significantly. We review technologies such as automatic speech recognition, speech synthesis and automatic translation, and discuss their implications for present and future human-machine interaction.

Prerequisite: LING 100 or consent of instructor.

This course satisfies the General Education Criteria in Fall 2022 for:
Cultural Studies - Western
Social & Beh Sci - Beh Sci
