

## AWHONN Intermediate Fetal Monitoring Course

This course addresses principles of fetal heart monitoring and may be used as a knowledge assessment tool to validate the comprehension of experienced perinatal clinicians. This course includes lectures and hands-on skill stations, including performing Leopold maneuvers, placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of fetal monitoring tracings using a case-based approach, identification of physiologically based clinical interventions, and communication and risk management principles. This course can be used to support preparation for certification examinations.

### Learning Outcomes:

- Interpret fetal heart rate monitoring using NICHD terminology within a safety culture framework of interdisciplinary teamwork
- Describe clinical interventions and related maternal-fetal physiology to optimize fetal oxygenation
- Demonstrate collaborative communication in the perinatal setting
- Demonstrate common perinatal procedures related to fetal monitoring

### Nursing Contact Hours/CME Credit:

11.25 total nursing contact hours/11.25 CME credit available through January 31, 2025 (0.5 hours may be used towards pharmacology hours).

### Course Format:

Successful completion of online prerequisite education is required prior to attending the one-day in-person portion of the course.

- prerequisite online learning approximately three hours.
- in-person is eight hours and includes time for lunch and breaks (**cannot be taught virtually**).

Nursing contact hours/CME credit will be awarded after the successful completion of the online knowledge validation test and evaluation after the in-person course and is required to receive nursing contact hours/CME credit for the course.

### Cost:

- **AWHONN Registration Fee - \$135.00** – Intermediate Student Materials with scratch-off coding to access online education is included with the purchase of materials through Kendall Hunt. Course ID number is required with purchase.
