IHSI UPDATE | MAY 20, 2019

This newsletter highlights health sciences information and activity of broad interest to the research community. Please visit the [IHSI e-newsletter page](#) to subscribe to newsletters in your specific areas of interest, or opt out of future newsletters using the link at the bottom of the email. Please [contact IHSI](#) if you have items you would like us to share.

ILLINOIS REDCAP NOW AVAILABLE CAMPUS-WIDE

IHSI is pleased to announce the campus-wide launch of Research Electronic Data Capture (REDCap), the renowned data collection and management application, at Illinois. REDCap is now available for investigators across the University of Illinois at Urbana-Champaign campus.

If you would like to use Illinois REDCap for your research project, please visit healthinstitute.illinois.edu/REDCap and submit the Illinois REDCap [user request form](#).

COMPUTATIONAL GENOMICS INTENSIVE COURSE | REGISTER BY JUNE 3

The Computational Genomics Course, sponsored by the [Mayo Clinic & Illinois Alliance](#), will be held **June 10-14**. Participants will learn the basics of computational genomics while integrating the latest technologies and computational methodologies. Illinois and Mayo Clinic faculty will lecture and lead lab exercises in genome sequencing and assembly, polymorphism and variant analysis, epigenomics, and data visualization. The course is open to all students and faculty; fees apply.

MICROBIAL SYSTEMS INITIATIVE NAMED TO REFLECT BREADTH AND DIVERSITY OF RESEARCH INTERESTS

The former Microbiome Initiative recently announced a name change to better reflect the breadth and diversity of research interests on the Illinois campus. The Illinois [Microbial Systems Initiative \(MSI\)](#) will continue to build a robust international profile in microbial sciences and engineering at Illinois. [Subscribe to the Microbial Systems Initiative mailing list](#) to join this community.
