

Getting Started with Zoom

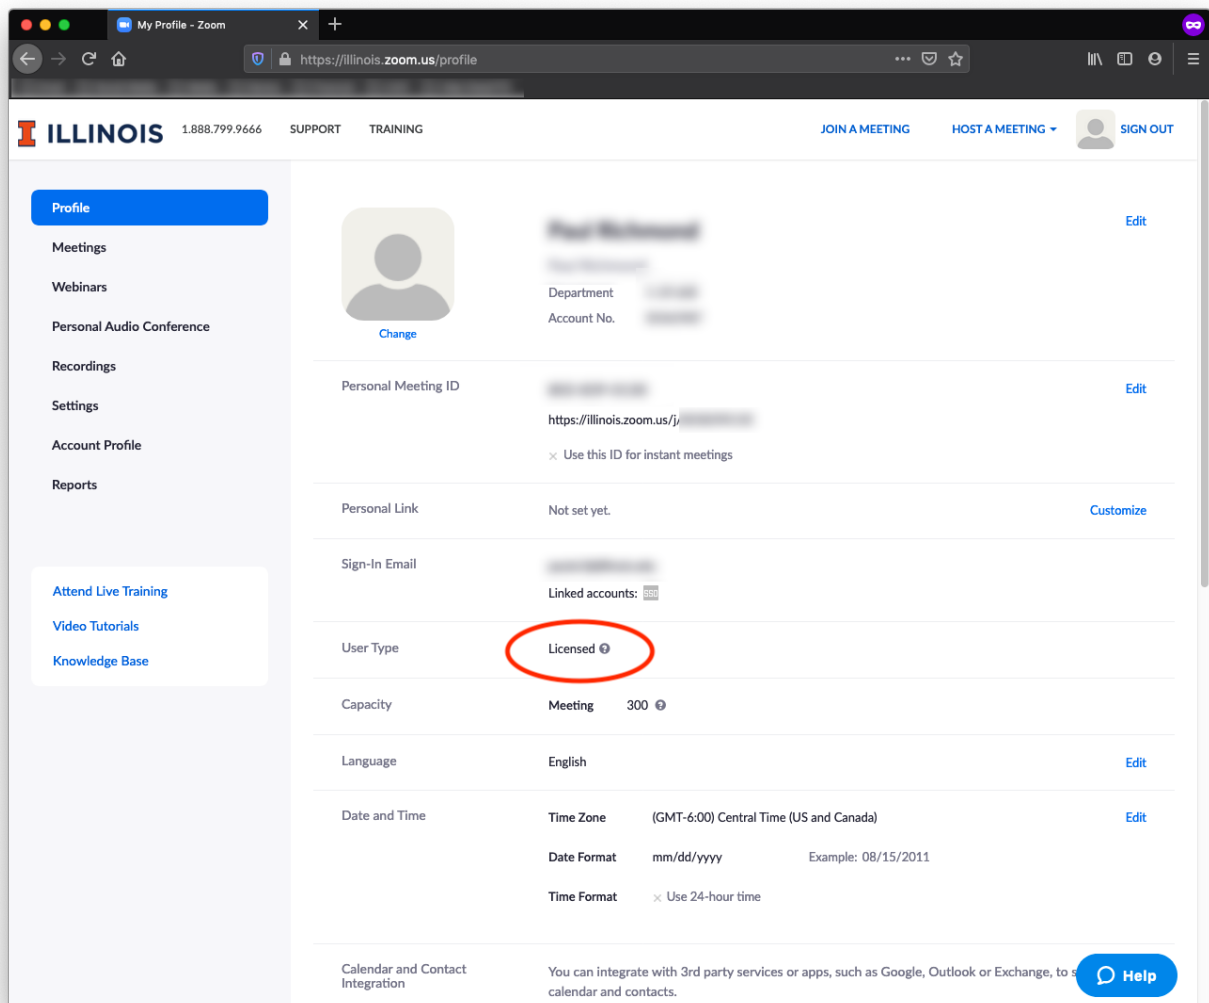

Activating Your Account

Before you do anything with Zoom, you will have to activate your account by going to <https://illinois.zoom.us/>.

Click on the "Sign in" button, and log in using your Illinois NetID and password.

Once you sign in, you will be taken to your Zoom profile page. In the row labelled "User Type" you should be listed as "Licensed" (previously called Pro). If your user type is "Basic," contact the Help Desk for help getting your account configured.

Downloading the Software

In order to use all the features of Zoom during your meetings, you will need to use the Zoom Software.

The software will automatically download when you join your first meeting, but if you would like to download it ahead of time go to: <https://zoom.us/support/download> **The software will automatically download once you click on the link.**
