

**Offsite Clinical Faculty and Staff (PHS, Psychiatry, UnityPoint and/or OSF):**

For our offsite clinical faculty and staff, we are well aware that most must go through a daily hospital/ambulatory checkpoint which complies with the campus screening requirements (but there is no data throughput to feed into the campus platform). To acknowledge this, we have placed all of the faculty with physician appointments and the clinical staff in hospital/ambulatory based departments on an “exemption” list. This is so we will not inadvertently disable their iCard access. However, when entering the building at 1 Illini drive you are still be asked to complete the survey by check the box says

- I attest I have already been cleared today to work at UIC through an in-person/on-site temperature & wellness screening at the Hospital or other approved clinical site.

**Entry / Exit of UICOMP Main Campus Building:**

- You will need your UIC identification cards (iCard) for swipe access into and out of the building at the security desk.
  - You will see a light when you swipe our iCard.
    - **GREEN** light for approved access into the building.
    - Or
    - **RED/Green Light flash** if your access has been removed.
- The UIC identification card (iCard) must be displayed/worn at all times. Face masks must be worn in group settings, classrooms, and public corridors. Please follow social-distancing and handwashing guidelines on display throughout the buildings.
- The employee and/or student can check their admittance status using <https://go.uic.edu/dailypass> (This is the daily admit pass)

If you have questions or experience technical difficulties, please email UICOMP-CIS Communication ([CISComm@uic.edu](mailto:CISComm@uic.edu)).
